RULES FIS CROSS-COUNTRY WORLD CUP 2017-2018

1. **General Rules**

1.1 **Calendar planning**

1.1.1 FIS Cross-Country World Cup calendars are established by the FIS Cross-Country Sub-Committee for World and Continental Cups in close collaboration with the National Ski Associations. The FIS Sub-Committee for World and Continental Cups, however, has the right to make venue changes in order to guarantee the quality of an event.

1.1.2 The FIS Overall Cross-Country World Cup consists of individual competitions of distances longer than 1.8 km (Distance World Cup) and sprints which are shorter than 1.8 km (Sprint World Cup). World Cup Relays and Team Sprints are counted under the Nations Cup standings.

1.1.3 Techniques

In principle, the World Cup season should be carried out with 50 % free technique and 50 % classical technique.

1.2 **Substitution, Cancellation**

If for any reason a FIS World Cup competition cannot take place, the FIS Race Director must be informed immediately.

Depending on the case, the competitions can be transferred to an alternate location, cancelled or postponed to a later date in the season.

If such a situation occurs the FIS Cross-Country management (FIS staff and the Chairman of the Cross-Country Committee) will evaluate the situation, consult the rights holders, establish a proposal and report to the FIS Council for approval.

1.2.1 Alternate Location

In principle, a transferred competition shall be carried out in the same country. The National Ski Association is responsible to coordinate and ensure the transfer of knowledge, information and finances to the new OC.

If that is not possible, the competition may be carried out in another country. In this case and in order to reduce the cost of the organisation, the new OC has the right to ask for the cancellation of the payments of the red group lists (article 10 and 11).

If the decision is taken later than 9 days before the event, the original OC must pay the travel costs to the teams entered at the date of the decision according to article 11 and be in charge for cancellation fees of the accommodation.

1.2.2 Cancellation

In the case of cancellation later than 9 days before the event and except in case of force majeure (storm, cold weather and unpredictable circumstances) the OC must pay the travel costs to the teams entered at the date of the cancellation according to article 11.

2. **Snow conditions**

2.1 **Snow Control**

The Organising Committee must constantly inform the FIS Race Director on the snow conditions and preparations, especially during the last 3 weeks before the event.

A snow controller is nominated by the FIS Office for each World Cup stage and is responsible to send a report to the FIS Office (friedrich@fisski.com) 13 days before the event.

If the snow report is negative the Race Director will coordinate the work of an event preparation group that is comprised as described in article 2.2.

2.2 Event Preparation Group

In the case of difficult snow conditions 13 days before the event, an event preparation group will be appointed in order to make a decision on the possibility to hold the events as planned or to make any necessary changes.

The members of the event preparation group are:

- The FIS Race Director
- The FIS Event Coordinator
- 1 representative of the Organising Committee
- 1 representative of the National Ski Association
- The chairman of the FIS Cross Country Committee

The event preparation group will make its decision at the latest 9 days before the event. In any case, the competition courses must be ready at the latest 5 days before the event.

In the meantime, both the host NSA and FIS will look for potential alternative locations within the same country or another country according to article 1.2.1.

If necessary the FIS Race Director can nominate an expert (FIS TD or FIS homologation inspector) to be sent to the site in order to inform the event preparation group on the snow conditions, the snow production / transportation progress and the course preparation.

All the travelling and accommodation costs will be paid by the OC.

In addition the expert will receive a daily rate paid by the OC according to ICR 304.1.1.

This timeline do not apply for city sprints.

2.3 Snow guarantee, salting, snow transportation

The capacity of snow production, snow storage and ability to guarantee safe snow conditions in general are taken into consideration when the World Cup calendars are established.

Each World Cup venue must prepare and present during the summer site inspection a detailed plan for snow guarantee.

In any case, the possibility to use salt on the courses and to transport snow from other locations must be checked and approved by the appropriate authorities. A sufficient amount of salt must be available.
